

# MEET YOUR Foot and Ankle Surgeon

*“The most rewarding aspect of Foot & Ankle Surgery is that we help to keep people moving and participating in the activities they love. It is so gratifying to hear patients say they are pain free or back to activities they have not been able to do for years. I am happy to know I had a part in that.”*

**Lisa Hobbs, DPM, FAFAS**

## Why I Chose Podiatry

Podiatry is a wonderful specialty because we get to help patients in a variety of ways. We perform surgeries, wound care and diabetic foot care, along with treating injuries and complex foot deformities. I am fortunate to have the opportunity to help the people within our community.
